QUOTE**

**Slopes and Ramps 0° - 11°**

- 2 tube diameters 42.4 mm and 48.3 mm
- Posts are 1100 mm high - jig assembly ensures accurate alignment of galvanised clamps
- *Ready cut handrails for posts at 1500 mm centres*
- *Tube Galvanised or with thermoplastic durable coating 'Warm to touch'*
- *No cutting or welding on site - Stainless steel Hex screw assembly.*
- *Flange bases for easy attachment to slope surface*

**End Post**

Comprises Galvanised or Safety yellow tube 1100 mm o/all high, 152 base flange, 153 short tee, 154 2-way elbow

**Middle Post**

Comprises Galvanised or Safety yellow tube 1100 mm o/all high, 152 base flange, 156 2 socket cross, 155 long tee

**Level to Slope Post**

Comprises Galvanised or Safety yellow tube 1100 mm o/all high, 132 base flange, 101 short tee, 125 2 way elbow and 2 x 166 adjustable knuckle

**DDA Slope Post**

Comprises Galvanised or Yellow tube 1100 mm o/all high with 152 base flange, 156 2 socket cross and 125 elbow and 747 Assist Expanding Internal Swivel Bracket

**End Swivel Fixings**

Comprises Galvanised 2 No. (Pair) Part No. 169 swivel wall fixings

**Handrails**

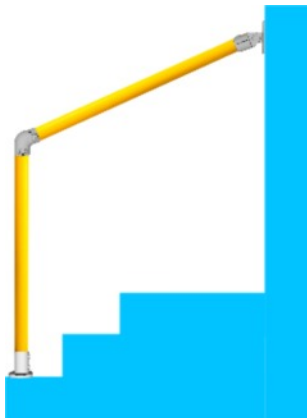

Safety yellow tube cut ready for 1500 mm post centres - 2 No. (Pair)

# Ready-Made Safety Yellow Handrail Kits

- 2 tube diameters 42.4 mm and 48.3 mm
- Stair posts are 1000 mm high - jig assembly ensures accurate alignment of galvanised clamps
- Handrails supplied in 3200 mm lengths for cutting and joining on site
- Tube Galvanised or with thermoplastic durable coating 'Warm to touch'
- No cutting or welding on site - Stainless steel Hex screw assembly.
- Flange bases for easy attachment to flat surface

**REQUEST  
QUOTE**

**Steps Kit**

Comprises Galvanised or Safety yellow tube 1000 mm o/all high, 132 base flange, 124 Variable Elbow (15° - 60°) Handrail to suit and 169 swivel wall fixing

## Steps and Staircases

**Stair End Post**

Comprises Galvanised or Safety yellow tube 1000 mm o/all high, 132 base flange, 101 short tee with 147 Internal Swivel Tee. 125 Two way elbow and 147 Internal, 2 x 333 Aluminium Stop Ends

**Handrail Joints**  
Handrails cannot be joined at posts, use 150 Internal Expanding Joint

**End Post with Extension**

Comprises Galvanised or Safety yellow tube 1000 mm o/all high, 132 base flange, 101 short tee with 147 Internal Swivel Tee. 125 Two way elbow and 147 Internal, 123 variable elbow. 124 variable elbow

**DDA Swivel Post**

Comprises Galvanised or Yellow tube 1000 mm o/all high with 132 base flange, 101 short tee, 125 elbow both with 747 Assist Expanding Internal Swivel Bracket

**DDA Swivel End Post**

As DDA Swivel post but with 2 x 725 Expanding internal assist elbows and additional tubes cut to suit

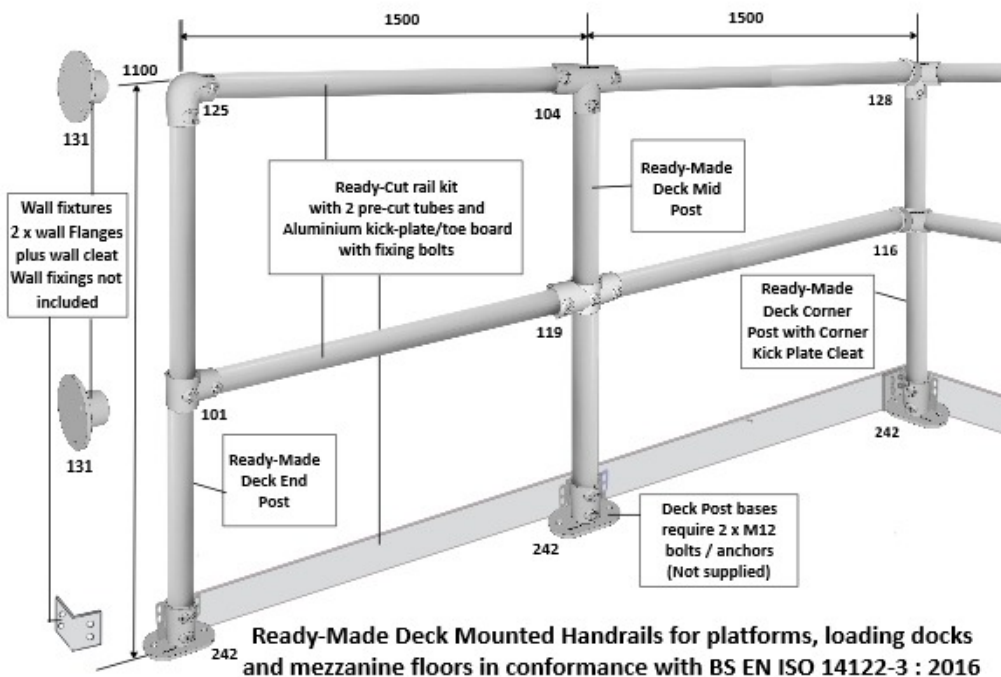

**Mid Stair Post**

Comprises Galvanised or Safety yellow tube 1000 mm o/all high, 132 base flange, 101 short tee with 147 Internal Swivel Tee. 125 Two way elbow and 147 Internal Swivel Tee

**Handrail Joints**  
Handrails cannot be joined at posts, use 150 Internal Expanding Joint
