

NEW TUBE THERMOPLASTIC COATING (PPA 571 ES) RAL 1021 ALERT SAFETY YELLOW TUBE. CLAMP FITTINGS GALVANISED TO BS EN ISO 1461-2009

Coating Benefits include:

- *Thicker coating than traditional 'Powder Coating'*
- *Excellent corrosion resistance*
- *Good abrasion resistance*
- *Good Impact resistance*
- *Excellent Weather resistance*
- *Flexible*
- *'Warm' to the touch*
- *Excellent UV resistance*
- *Easy clean*

Tube Sleeves

*Hazard Warning Yellow and Black Stripes - Sold in one metre lengths.
PVC Easywarn is an easy to install - Snaps over tube!*

PLASCOAT PPA 571 ES

Performance Polymer Alloy Coating

GENERAL DESCRIPTION

The *Art* of Protection

Plascoat PPA 571 ES has been specifically designed to provide a long lasting, tough coating for exterior applications to mild steel, galvanised steel and aluminium. It is based on an alloy of acid modified polyolefins. Therefore it is Halogen free and the combustion fumes are low in smoke and have a low toxicity index.

Plascoat PPA 571 ES is resistant to stress cracking, adverse weather conditions, detergents, salt spray and typical airborne pollutants. The coating maintains excellent adhesion to the metal substrate without the need for a separate primer for most applications. The material also provides a good abrasion and impact resistance.

TYPICAL USES

Fencing, fan guards.
