

## Raptor Load Moving Skate Kits SKT Series c/w Handle and Parallel Rods Sets of 3

- Shifting skates can be used wherever heavy objects have to be moved. The Load can be lifted using either the roller crowbar or a jack, allowing the skates to be easily positioned.
- The large diameter sealed nylon rollers ensure ease of movement and spread the load, protecting high quality floors from damage caused by high point loads and oil/grease contamination.
- The skates are maintenance free and are fitted with handles for ease of carrying and positioning. The platforms of the skates are fitted with a rubber surface which helps stability and protect the object being moved.
